

Special Rules

Golden Ball

Each team will receive a golden ball. Every shot must have 1 member of the team using the golden ball. Teams that still have possession of their golden ball at the end of the round get -2 off their final score.
NOTE: Each team must use the golden ball shot off the tee 1 time per 9 holes.

Throw the Ball, Jitka!

Each scramble team must choose to throw the ball instead of hitting once per 9 holes. All members of the scramble must throw their ball, and it must be done at the same time.

Tee Box Parity

All scramble teams start on White Tee Box for the first hole. If scramble team scores a bogey or worse, they move a tee box closer on the next hole. If they score a birdie or better, they move a tee box further away on the next hole. If they score Par, they to use same tee box category as previously completed hole.

Worst is First

Adam will spin the wheel to determine a designated hole where each scramble team will play the worst ball throughout the hole. After each hit, the team collectively and honestly determines the worst shot and plays from that result. This continues until the hole is finished with all scramble team members holing out.

Buy Mulligans with your Liver

Each player has the option to take a mulligan on any shot by shotgunning a beer. No max.

Prize

Last place team has to buy the 1st round at the brewery
